The Main Page :

The Name :

The Email :

Write any message below

The PHP Page :

The Connection done

The DB Created

New Table has been created.

All your data's has been saved in the DB,herafter there is no needs of Worring.

The PHP Main Page :

The screenshot displays the phpMyAdmin web interface. On the left sidebar, the database structure is shown with 'exlv' selected, containing a 'contacts' table. The main panel shows the 'Structure' tab for the 'contacts' table. It lists three columns: 'name' (varchar, NULL), 'email' (varchar, NULL), and 'Data' (varchar, NULL). Below the structure, the 'Data' tab is active, showing a single row of data: 'Thanos Fever', 'tpskbpk@24mails.com', and 'We dont have anymore Secrets.' The interface includes various toolbars for navigation, query execution, and data manipulation. A console window is visible at the bottom.
